Relax and chat.

Enhance the appeal of your outdoor fitness area with design furniture that encourages people to relax and chat after a satisfying workout.

Our weather-proof furniture by *Arthur Rottier* combines simple, clean lines and high-quality materials to offer both comfort and ease of use.

The outdoor furniture line of No Rocket Science consists of three main products: the **Lazy Seat**, the **Chill Seat**, and the **Easy Chair**. The latter two are also available in a sofa version for multiple people.

Outdoor Furniture

All the seats from No Rocket Science Outdoor Furniture are made from polyether foam, which is extremely comfortable and supportive. Unlike hard concrete or cold iron, it feels really soft. Perfect for truly relaxing the body.

The polyether foam seating and furniture are fully coated with a durable and waterproof finish. This coating is resistant to UV radiation and extreme temperature fluctuations, ensuring an exceptionally long lifespan for this wear-resistant layer.

When designing the outdoor furniture, consideration was given to the relationship between humans and their environment. After being active, the body can relax in the desired posture. The shapes are determined so that almost every body type can find relaxation in their own way or adopt an active posture to engage with others.

Having a good time sitting and relaxing outdoors should feel nice. The look of No Rocket Science Outdoor Furniture makes you smile. Its soft colours and fun shapes make it feel light and easy, steering away from seriousness.

The sides of the Easy Chair are made of recycled plastic, waste plastic, and thermoplastics, in a grey-green colour. This eco-friendly construction not only reduces environmental impact but also ensures durability and resistance to weather elements. Additionally, the grey-green colour adds a contemporary and stylish touch to any outdoor setting.

Moveable outdoor furniture in public outdoor spaces offers more flexibility than fixed furniture. Because they are light, people can easily rearrange them to their liking. Children and teenagers can also play with them, creating a natural liveliness and space for creativity.

Lazy Seat

(M) Item no. FUR50100-0001

(S) Item no. FUR50200-0001

Product Details (M)

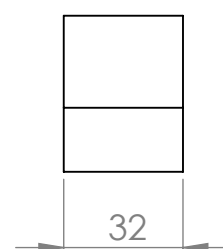

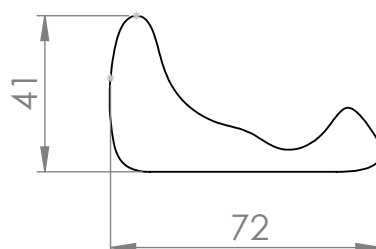

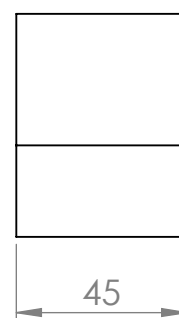

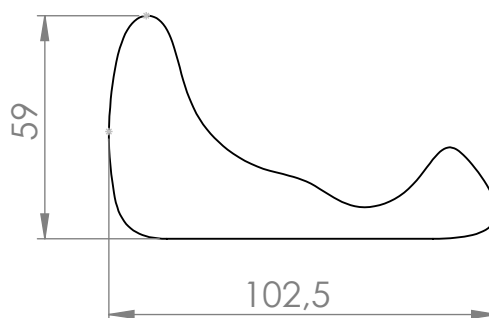

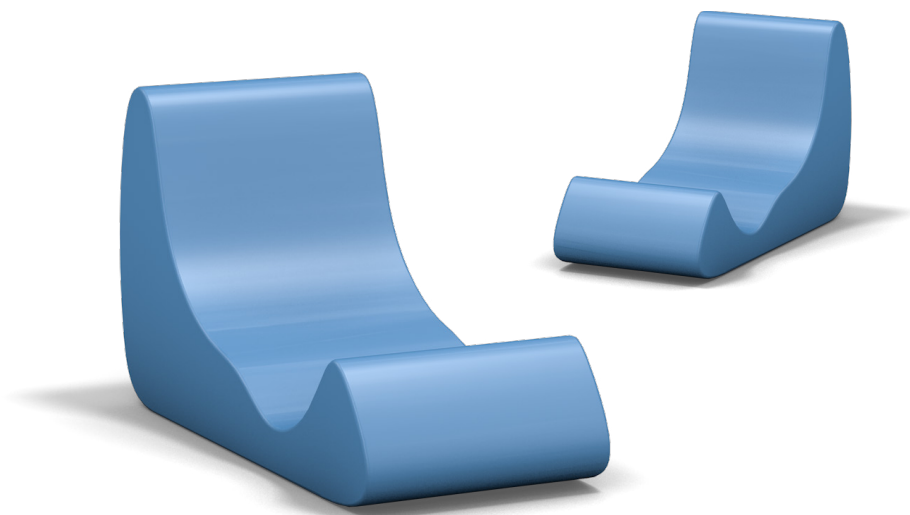

Dimensions LxWxH	1025x450x 590 mm
Seating capacity	1
Seating measurement HxDxW	90x300x 450 mm
Shipment weight	6 kg

Product Details (S)

Dimensions LxWxH	720x320x 410 mm
Seating capacity	1 (Child)
Seating measurement HxDxW	65x210x 320 mm

Couch Table

Relax Arm

Warranty Information

This product has a three-year warranty covering manufacturing defects and normal use issues.

Couch Table and Relax Arm

This versatile accessory is ideal for both 2-seaters and larger couches, offering a flexible placement as it can be placed loosely on the couch. Designed for convenience, it serves as a perfect spot for placing items like drinks (**Couch Table**) or for comfortably resting your arm on (**Relax Arm**). Crafted from solid polyether foam, it boasts durability thanks to a wear-resistant coating available in specified RAL colors.
