Move, play, and have fun! That's what the Octagon is designed for. With its shape that brings people together, it offers a unique 360° interactive game experience that seamlessly blends play and sport. It's suitable for teenagers and adults alike. The Octagon also supports boot camp exercises, making it ideal for personal and small group training sessions.

There are three distinct versions of the Octagon Interactive: **Large, Medium** and **Small**. The variations are based on the device's dimensions and workout capabilities.

Octagon Interactive

The connectors are made of die-cast aluminum specially alloyed for outdoor environments. The connectors are attached to the posts by stainless steel bolts and coated with Realcoat™ PE semi-gloss smooth, well protected against corrosion.

For ensuring the integrity of the main frame, the main posts are made of $\varnothing 114,3 \times 3,6$ mm steel posts, which are hot dip galvanised and powder coated with Realcoat™ PE semi-gloss smooth.

The $\varnothing 500 \times 18$ mm Target Shoot is made from 15 mm HDPE plate. HDPE is a highly durable, ecofriendly material, which is recyclable after use.

By turning the wheel the user generates energy. No external power supply is needed. The generated energy will be used to power the internal computer and control the push button game. The maximum energy generated is so small that it is not dangerous to humans and animals.

The 12 illuminating pushbuttons contain high power RGB LEDs, casted in polyurethane resin. The user can select one out of 3 games: Lights Out, Reaction or Follow the Light. Speed and agility are trained in this patented 360 degrees set up and competition can be created by playing together.

Certified
EN16630
product

All NRS fitness products are compliant with the EN16630 Outdoor Fitness Standards. Load tests are performed as a static test by adding dynamic factors as well as safety factors to the specified load of 78 kg per user. A product intended for 1 user is loaded with 420 kg.

Octagon Large Interactive

Item no. OCT10101-0901

Product Details

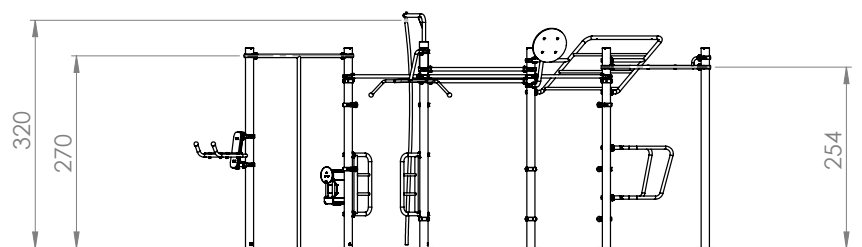

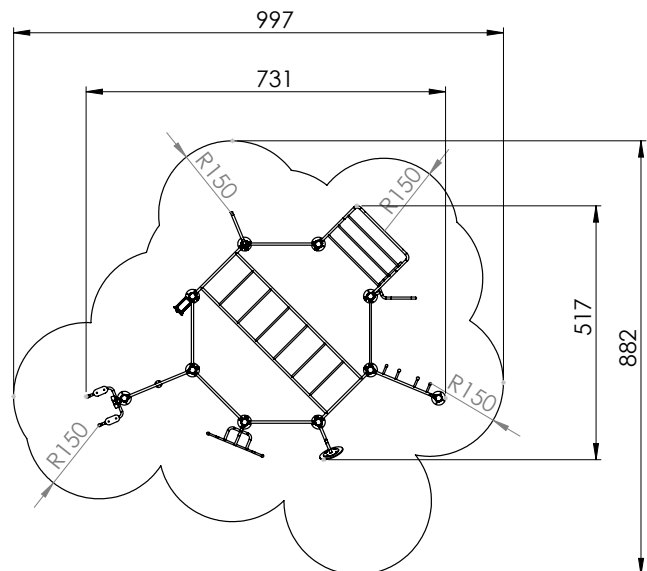

Dimensions LxWxH	731x517x 320 cm
Age group	13+ Years
Play capacity (users)	16
Colours	

Installation Information

Max. fall height	270 cm
Safety surfacing area LxW	997x882 cm
Total installation time	16 Hours
Shipment weight	600 kg
Anchoring options	Surface

Warranty Information

Hot dip galvanized steel	Lifetime
Aluminum clamps	Lifetime
HDPE plate	Lifetime
Electronics	2 Years
Spare parts guaranteed	10 Years

Activities

Human Powered Interactive Push Button Game, Battle Rope, Pull Up Bar, Monkey Bridge, Pull Up Ladder, Dip Station, Grip Bar, Target Shoot, Leg Lift, Pull Up Multi Bar, Push Up Station, Human Flag, Rope Climb.

Octagon Large (non-interactive)

Item no. OCT10100-0901

The Octagon Large is also available without the interactive layer. All product details are the same, but without the push-button system. Play capacity is 14 users.

Octagon Medium Interactive

Item no. OCT10201-0901

Product Details

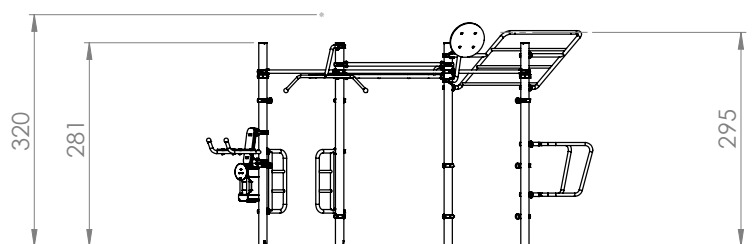

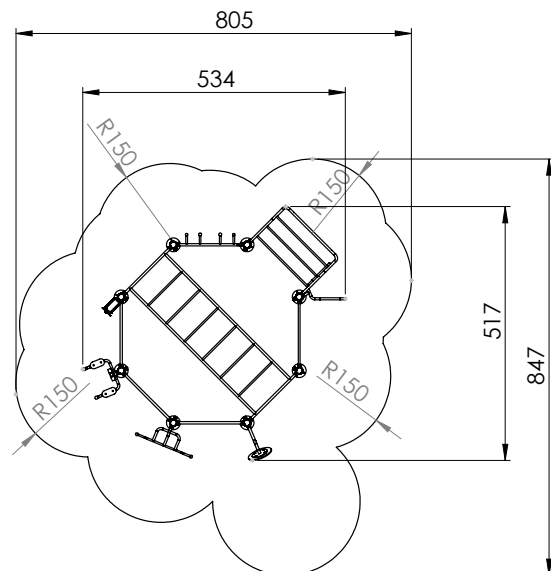

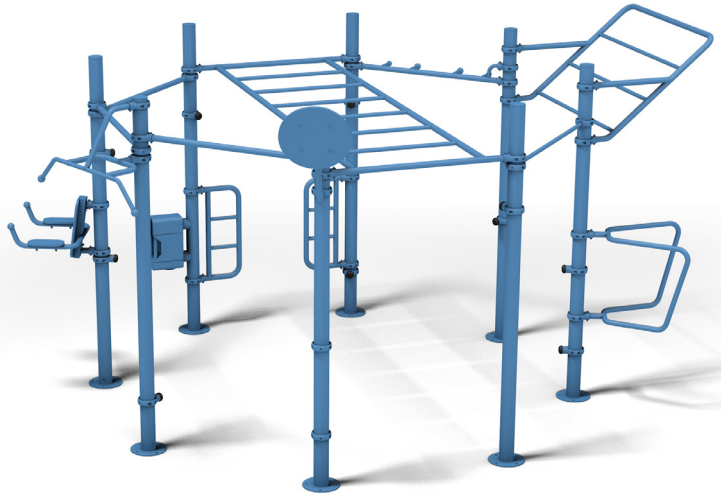

Dimensions LxWxH	534x517x 295 cm
Age group	13+ Years
Play capacity (users)	14
Colours	

Installation Information

Max. fall height	295 cm
Safety surfacing area LxW	805x847 cm
Total installation time	14 Hours
Shipment weight	575 kg
Anchoring options	Surface

Warranty Information

Hot dip galvanized steel	Lifetime
Aluminum clamps	Lifetime
HDPE plate	Lifetime
Electronics	2 Years
Spare parts guaranteed	10 Years

Activities

Human Powered Interactive Push Button Game, Battle Rope, Pull Up Bar, Monkey Bridge, Pull Up Ladder, Dip Station, Grip Bar, Target Shoot, Leg Lift, Pull Up Multi Bar, Push Up Station.

Octagon Medium (non-interactive)

Item no. OCT10200-0901

The Octagon Medium is also available without the interactive layer. All product details are the same, but without the push-button system. Play capacity is 12 users.

Octagon Small Interactive

Item no. OCT10301-0901

Product Details

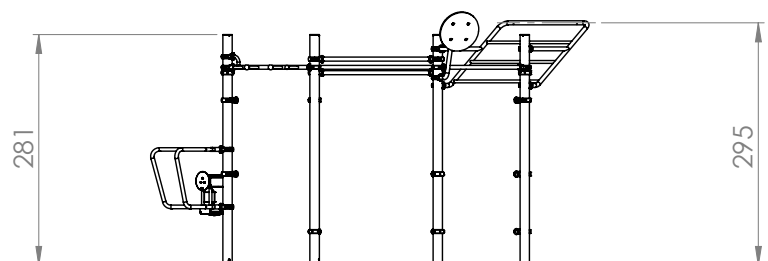

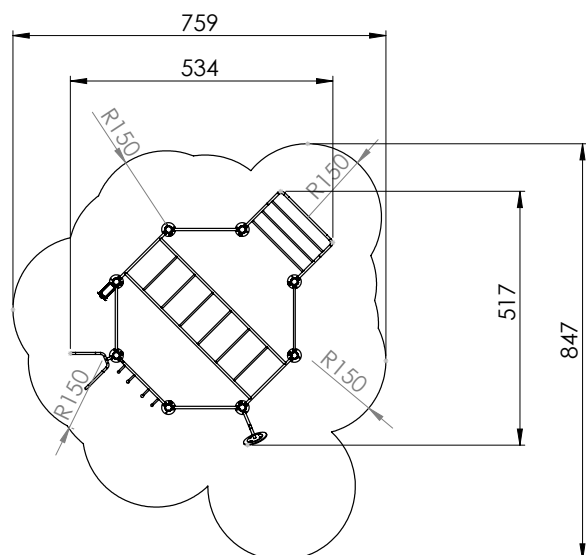

Dimensions LxWxH	534x517x 295 cm
Age group	13+ Years
Play capacity (users)	12
Colours	

Installation Information

Max. fall height	295 cm
Safety surfacing area LxW	759x847 cm
Total installation time	12 Hours
Shipment weight	550 kg
