Outdoor Fitness Hub

Train anytime, anywhere!

The Outdoor Fitness Hub is a smart, weatherproof storage and training solution that transforms any outdoor space into a complete workout area. With app-controlled access, integrated power from a roof-mounted solar panel and a built-in sound system, it offers a fully equipped and energised outdoor gym experience for up to 20 people.

Flexible Interior Configurations

Different interior setups allow the box to be tailored to specific users — suitable for schools, community coaches, personal trainers and leisure environments.

Applications

- Community fitness spaces
- Personal & group training sessions
- Corporate wellness programs
- School and campus environments
- Leisure parks and resorts
- Public outdoor areas & sport facilities
